PROFESSIONAL SUMMARY

Detail-oriented Front-end Web Developer with expertise in content management systems and web technologies. Proficient in HTML, CSS, JavaScript, and various frameworks with experience in managing digital content. Strong background in website development, quality assurance, and collaborative teamwork. Seeking to leverage technical skills and creative problem-solving abilities as an Adobe Experience Manager (AEM) Specialist to enhance client website content and user experience.

KEY SKILLS

- ✓ HTML5/CSS3 ✓ JavaScript ✓ Content Management Systems ✓ Responsive Web Design ✓ A/Btesting
- ✓ UI/UX Design ✓ React JS ✓ Next JS ✓ Web Content Optimization ✓ Quality Assurance
- ✓ Cross-functional Collaboration ✓ Git/GitHub ✓ Technical Documentation ✓ Postman/API Testing

TECHNICAL PROFICIENCIES

-  Languages:
JavaScript, HTML5, CSS3, Java, Python, TypeScript
-  Frameworks/Libraries:
React JS, Next JS, Node.js, Express JS, Angular JS, Tailwind
-  Tools & Platforms:
Git, GitHub, Postman, Jira, Figma, Adobe Photoshop, VS Code
-  Databases:
MongoDB, PostgreSQL, MySQL, SQL, Firebase

PROFESSIONAL EXPERIENCE

Trainee Data Engineer June 2024 – Present NODE LYNX – Remote

Built ETL workflows using Python (Pandas, NumPy) to cleanse, transform, and store large-scale datasets
Collaborated with development teams to optimize data pipelines and enhance data quality
Utilized JavaScript and REST APIs for front-end data visualization and user interface improvements
Worked with SQL databases to maintain data integrity and implement efficient queries
Technologies: Python, SQL, JavaScript, AWS, Microsoft SQL Server, REST APIs, Pandas

QA Engineer (Bootcamp) June 2023 99X – Colombo-3, SRI LANKA

Developed test plans and test cases for web applications and content management systems
Conducted automated testing on web and mobile applications using industry-standard tools
Performed API testing using Postman to verify data integrity and system functionality
Collaborated with cross-functional teams to identify and resolve defects in web content
Created comprehensive documentation for testing procedures and system functionality
Technologies: Selenium, Postman, API Testing, JIRA, TestNG, Maven

IT Support Engineer Intern June 2021 - September 2021 DMS – Malabe, SRI LANKA

Provided technical support for hardware, software, and network systems
Resolved Windows Server and network connectivity issues to ensure continuous operation
Assisted with system configurations and website content management
Maintained accurate documentation of technical processes and solutions
Collaborated with development teams to troubleshoot and optimize infrastructure performance
Technologies: SQL, Microsoft SQL Server, Tableau, Power BI

RELEVANT PROJECTS

- **Responsive Modern UI/UX Website**

Developed a responsive website with modern UI/UX principles, implementing best practices for content management and user experience.
Technologies: React JS, HTML5, CSS3, JavaScript, Responsive Design

Nov 2024 – Dec 2024

DemoCode
- **ECommerce Web Shop**

Created a full-featured e-commerce platform with content management capabilities, product displays, and responsive design.
Technologies: React JS, Node.js, HTML5, CSS3, JavaScript, REST APIs

Dec 2024 – Jan 2025

DemoCode
- **Setup Web In Cloud**

Deployed and configured web applications in cloud environments, implementing content delivery and management solutions.
Technologies: AWS, Cloud Services, CI/CD, Web Hosting

Nov 2024 – Dec 2024

DemoCode
- **React App Task Manager**

Developed a task management application with user-friendly interface and content organization features.
Technologies: React JS, JavaScript, HTML5, CSS3, State Management

Oct 2024 – Nov 2024

DemoCode

EDUCATION

B.Eng (Hons) – Software Engineering

ESOFT METRO CAMPUS –Colombo-4, SRI LANKA
GPA: 3.4
Relevant Coursework: Object-Oriented Programming, Database Management, Data Structure and Algorithms, Operating Systems

November 2024

CERTIFICATIONS

- 🚩

CISCO - CCNA, CCNP, Linux

Network infrastructure, routing and switching, security, and Linux administration
- 🚩

CYBRARY – CISSP

Security policies, risk assessments, and advanced security implementation
- 🚩

MICROSOFT - AZ 900, DP204

Microsoft Azure services for scalable and secure cloud solutions
- 🚩

UOM(OLP) – Full-stack Development, Project Management

Frontend and backend development technologies, agile methodologies

LEADERSHIP

Android Team Lead – Google Developer Students Club

Lead the Android development team, hosted study sessions and hackathons, coordinated team projects and activities

June 2022 - July 2022

AI Hackathon Lead

Lead a team of 2 members implementing LLM methodologies and created a functional chatbot application

November 2023 - December 2023
